Don't fail to get in the Oklahoma Booster Edition of The Tulsa Star.

Of course the Tulsa spirit will be the dominant spirit at Muskegon in August.

Tulsa will be there with the goods in the Star's Oklahoma Booster Edition.

The crops in Oklahoma are in excellent condition and a record breaking harvest is assured.

The more you see of some people, the less you care to see them. The eternal office seeker for instance.

The Tulsa Star is now generally recognized as the leading Colored paper published in the State—in the Southwest for that matter. We are going some!

There seems to be no way to restore peace in Mexico by mediation. What step will Uncle Sam take next? Too bad, Teddy is not in the president's chair to wield the big stick.

"It's impossible to keep a fellow down in the ditch unless you stay down there with him," says Booker T. Washington. If this is true (and we doubt it not) there is a big ditch in Tulsa, and some few men are in it.

When you find a fellow speaking well of his neighbor try to catch the spirit. Remember you are some one's neighbor, and it is so much nicer to speak well of your neighbor than to speak ill of them.

There is a smoldering cyclone under some of the elected teachers and if the power of the people means anything there will be something doing this fall. In the language of the immortal Shakespeare, "There's something rotten in Denmark."

It's funny how well some people like to be lauded by the press, and how earnest they appear to be in the belief that they were "really entitled to it," and that the editor was duty bound to stand the expense of telling the world of all their good qualities, etc. This is a funny world.

The Woods Block, which is rapidly nearing completion on Greenwood and Archer streets is a very creditable addition to the business section to the east end. Other buildings are going up on Greenwood which are blazing the way for still others to follow. And all of these buildings are owned by Negroes and will be occupied by Negro merchants.

The Chicago Broad Ax is firing broadsides into the Commission appointed by the Governor of Illinois to spend \$25,000 appropriated to that state to assist the Colored people of Illinois in celebrating the 50th anniversary of their freedom in 1915. The Star is of the opinion that Mr. Taylor, editor of the Broad Ax, should be appointed on that committee.

HAS YOUR WHEAT BEEN INFESTED WITH THE HESSIAN FLY?

Washington, D. C. July 2 1914. Has your wheat been infested by the hessian fly this season? is a question that the U. S. Department of Agriculture is now asking farmers.

The information is desired that there may be general co-operation between all concerned in reducing the devastations of the fly, there is every indication that the pest will be unusually troublesome to crop this fall.

Every wheat grower in the country who suspects that his crop has been infested is requested to send his name to the Department's Bureau of entomology at Washington D. C. with a request for a question blank. The questions to be answered are merely as to whether the wheat

grower's crop was infested at certain seasons. The farmer will then be asked to forward some of the infested wheat plants for examination, postage to be paid by the Government. He will also be asked to give his name, address, and the nearest railway station.

EASIER TO SHIP LIVE STOCK

WASHINGTON, D. C. JULY 2nd New regulations governing the interstate movement of live stock became effective July 1, 1914. These changes are designed by the Department of Agriculture to facilitate the movement of live stock from quarantine areas or from public stockyards.

The new regulations, which are known as B. A. I. (Bureau of Animal Industry) Order 210, supersede the common ailments of every family like a blanket. It gives that

the shipment of cattle from tick-infested areas, with the movement of swine from public stockyards and with the dipping of cattle and sheep for scabies.

Hereafter cattle that have been dipped once under State or Federal supervision may be shipped from an area quarantined for ticks to a market center where there are proper dipping facilities and the Department of Agriculture maintains an inspector. After a second dipping here under his supervision the cattle may be sold for any purpose.

Hitherto it has been necessary in times of drought for cattle owners in quarantined areas to slaughter their stock or sell it for slaughter for what ever it would bring. The resulting loss will, it is hoped, be done away with under the new regulation.

AN IMPORTANT SERIES OF FACTS

A man in Tulsa, Okla., stands pre-eminently as one of the greatest medical scientists of the present day, he is C. Dearman, the discoverer of the Famous Hottentot Remedy. It covers the common ailments of every family like a blanket. It gives that

universal satisfaction that is so often desired. It can be depended on in emergencies and you won't be deceived. It has a wider range of uses than any other medicine in the world. It has won many friends and is winning many more. Its a great remedy, there is no doubt about it. It's a great remedy.

People are ordering it from nearly. It must be good. See what the expert master says, you know its true. "To Whom It May Concern: This certifies that C. Dearman, (scientist) shipped a greater quantity of medicine (The Hottentot Remedy) through the post office at Tulsa, Okla., than the combined shipments of all other medical concerns in the city of Tulsa, Okla., during my term as postmaster in the city of Tulsa, Okla."

Signed, W. I. RENEAU, E-Post Master, Tulsa, Okla. This article may prove to be of immeasurable value to you if you will file of the Famous Hottentot Remedy before you forget it.
